SUMMARY

As a Ux designer, my goal is to bring value to all kinds of users by practicing inclusive design, enabling them to go about their daily lives as effortlessly as possible by providing a hassle-free and enjoyable product or service to them.

EXPERIENCE

UX/UI designer

Freelance - Uganda jobs in Kenya

July 2022 - September 2022, Nairobi

- Conducted research on the feasibility of online interactive programs connecting Kenyan households to Ugandan domestic worker job seekers in order to improve efficiency in domestic worker acquisitions by at least 50%.
- Created two unique User personas based on real people who represented the Customer.
- Constructed wireframes and mockups to better illustrate the journey of the two main personas.
- Developed the final prototype using HTML and W3css for a concise understanding of the system.
